

# LIVE GPS TRACKING

SHARE YOUR RACE IN REAL TIME WITH THE FOLKS THAT MATTER TO YOU.

**MAPROGRESS PROVIDES REVOLUTIONARY LIVE GPS MAPPING AND TRACKING. WE ARE EXCITED TO BE OFFERING THIS SERVICE FOR THE 2017 FAT DOG ULTRA.**

## WHY CONNECT?

Share your race in real time with the folks that matter to you. They can see how you're tracking on the course and be part of your adventure while not having to run beside you.

## HOW IT WORKS

The tracker comes in a supplied pouch which attaches to your shoulder strap. This whole system weighs only 100 grams so you'll hardly notice it. Throughout the race your location will be loaded onto an online map in real time..

## KEY FEATURES

- View on your smartphone, tablet or computer
- View in 3D with Google Earth - your friends and family will feel like they're running right beside you!
- Viewers can see your location on the route, your position in relation to other competitors, elevation profile graphs and your current speed
- There are many statistics available including route distance, speed comparisons to other participants, ascent etc
- Support crew can see when you are due at your next aid station
- Replay the race after you've crossed the finish line - this is a great way to reflect on your race and share your experience with friends and family from a new perspective
- Safety - in the event of an emergency you can notify race organisers for quick evacuation or other assistance

**SIGN UP**

- \$79 CAD (\$62 USD) p/runner. A \$35 credit will be provided to each runner (to be used for Fat Dog 2018 or Brigade Trail 2017 (Sept 9th)
- This fee includes hire of one SPOT trace and live GPS mapping and tracking throughout the event.
